**Description:** Due to moisture accumulation over time, both reverse lamps on the subject vehicles can stop working. If this occurs, the driver's view to the rear can be limited when backing during low ambient light conditions, and there may be no indication to others that the vehicle is operating in reverse. This can increase the risk of a crash.

If this occurs, the driver's view to the rear can be limited when backing during low ambient light conditions, and there may be no indication to others that the vehicle is operating in reverse. This can increase the risk of a crash.

**Remedy:** The remedy, when available, will involve replacement of both reverse lamp assemblies with improved assemblies, FREE OF CHARGE. Additionally, the wire harnesses will be repaired for any vehicles identified to have corrosion that has extended into the wire harness connector, FREE OF CHARGE. At this time, Toyota estimates the remedy will begin to be available in the 4th quarter of 2025, and we anticipate rolling out this remedy in phases. This remedy will also address other conditions resulting from the moisture intrusion (see FAQ for additional details).

| <div> <p><b>Description:</b> There is a possibility that certain machining debris may not have been cleared from the engine when it was produced. In the involved vehicles, this can lead to potential engine knocking, engine rough running, engine no start, and/or a loss of motive power.</p> <p>A loss of motive power while driving at higher speeds can increase the risk of a crash.</p> <p><b>Remedy:</b> Toyota is currently preparing the remedy. When it is available, owners of the subject vehicles will be notified to return their vehicles to a Toyota dealer. Using an inspection software, dealers will evaluate the #1 main bearing and collect available vehicle drive data to confirm the condition of that bearing. If the inspection software cannot confirm that the bearing will be free from abnormal wear due to this condition, dealers will replace the engine. The remedy will be provided free of charge. Toyota plans to contact customers directly in phases when the remedy is available for their vehicle. As a general matter, the planned phases would be based on vehicle age. In the meantime, owners with vehicles experiencing symptoms, such as engine knocking, rough running, or no-start, should contact their Toyota dealer.</p> </div> |        |                                                                                                                                                                     |                                                                                                                                                                                                                                                                                                                                                                                                  |

| <div> <p><b>Description:</b> Under certain circumstances, the multimedia display may become stuck on a camera view or display a black image in the subject vehicles. If this occurs, the rearview image may not be displayed while the vehicle is being reversed. In this case, the vehicle may not meet a federal safety standard and there can be an increased risk of a crash with a person behind the vehicle.</p> <p>There can be an increased risk of a crash with a person behind the vehicle.</p> <p><b>Remedy:</b> Any authorized Toyota dealer will update the software for the Parking Assist ECU software, FREE OF CHARGE.</p> </div>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |        |                                                                                                                                                                     |                                                                                                                                                                                                                                                                                                                                                                                                  |

## **CARFAX** Glossary

### **CARFAX Well Maintained - Regular Oil Changes**

CARFAX identifies a "Well Maintained - Regular Oil Change" vehicle as having a regular oil change history when all its recommended oil changes, based on the vehicle's maintenance schedule, have been reported to CARFAX. CARFAX uses the manufacturer's schedule and assumes normal driving conditions. When an oil change schedule is not available, CARFAX may analyze reported service events to determine what is typical for the same make and model vehicle. Dealers and service shops may publish different recommended service schedules.

### **First Owner**

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

### **Manufacturer Recall**

Automobile manufacturers issue recall notices to inform vehicle owners of a safety defect or failure to meet minimum federal safety or emissions standards. Manufacturer recalls are repaired at no cost to the customer.

### **Ownership History**

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

### **Title Issued**

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.

### **Toyota Recall / Service Campaign**

Portions of this report have been included under license from Toyota Motor North America, Inc. ("TOYOTA"), License Agreement TMS1013 . This data applies only to vehicle marketed or originally sold in Mexico and the United States of America, including Guam, Saipan, American Samoa, Puerto Rico, the U.S. Virgin Islands and the other United States territories and protectorates with currently open safety or emissions recalls, or service campaigns. While TOYOTA provides data to Carfax Inc. on a regular basis, this report may not include very recent activity. For the manufacturer's most current information on recall/campaign activity for any Toyota, Lexus or Scion brand vehicle, you must go to <http://toyota.com/recall> or <http://lexus.com/recall>.

**i** CARFAX Warranty Check provides an **estimate** of this vehicle's remaining warranty coverage. It does not take into account some vehicle history events such as some title brands that may void the original manufacturer warranty or ownership transfers that may decrease warranty coverage. This warranty information is only valid for vehicles manufactured for the United States. Complete warranty coverage information is available for this vehicle at the TOYOTA website.
