05/15/2025 Toyota Motor Sales, USA, Inc.

Manufacturer Safety recall issued

- NHTSA #25V322
- Recall #25TB06 25TA06 (INTERIM 25TB06) - 2022-2025 MODEL YEAR TUNDRA AND TUNDRA HV - REVERSE LAMPS MAY BECOME INOPERABLE
- Status: Remedy Not Yet Available

🔗 Learn more about this recall

Description: Due to moisture accumulation over time, both reverse lamps on the subject vehicles can stop working. If this occurs, the driver's view to the rear can be limited when backing during low ambient light conditions, and there may be no indication to others that the vehicle is operating in reverse. This can increase the risk of a crash.

If this occurs, the driver's view to the rear can be limited when backing during low ambient light conditions, and there may be no indication to others that the vehicle is operating in reverse. This can increase the risk of a crash.

Remedy: The remedy, when available, will involve replacement of both reverse lamp assemblies with improved assemblies, FREE OF CHARGE. Additionally, the wire harnesses will be repaired for any vehicles identified to have corrosion that has extended into the wire harness connector, FREE OF CHARGE. At this time, Toyota estimates the remedy will begin to be available in the 4th quarter of 2025, and we anticipate rolling out this remedy in phases. This remedy will also address other conditions resulting from the moisture intrusion (see FAQ for additional details).

10/01/2025 Toyota Motor Sales, USA, Inc.

Manufacturer Safety recall issued

- NHTSA #25V657
- Recall #25TA10 SAFETY RECALL ? 25TA10 ? MULTIPLE MODEL YEARS, MULTIPLE MODELS ? REARVIEW IMAGE MAY NOT DISPLAY
- Status: Remedy Available

Locate an authorized Toyota dealer near you to schedule an appointment

🔗 Learn more about this recall

Description: The software in the 14-inch multimedia (center) display in these vehicles could cause the display to show a half green, full green, or full black screen.

If this occurs while the vehicle is in reverse, there can be an increased risk of a crash with a person behind the vehicle.

Remedy: Any authorized Toyota dealer will update the multimedia display software FREE OF CHARGE. In addition to remedying the noncompliance, the remedy software will also contain various other software optimizations and bug fixes such as:- Improvements for the reliability of Android Auto and Apple CarPlay connectivity; - Reducing certain unnecessary prompts in the user interface; - Defaulting to the last source screen upon start up; and - Optimizing the software to ensure backup image display time.

11/06/2025 Toyota Motor Sales, USA, Inc.

Manufacturer Safety recall issued

- NHTSA #25V767
- Recall #25TB14 SAFETY RECALL - 25TA14 (INTERIM NOTICE 25TB14) - CERTAIN 2022-2024 MODEL YEAR TUNDRA - ENGINE MAY STALL DURING DRIVING
- Status: Remedy Not Yet Available

🔗 Learn more about this recall

Description: There is a possibility that certain machining debris may not have been cleared from the engine when it was produced. In the involved vehicles, this can lead to potential engine knocking, engine rough running, engine no start, and/or a loss of motive power.

A loss of motive power while driving at higher speeds can increase the risk of a crash.

Remedy: Toyota is currently preparing the remedy. When it is available, owners of the subject vehicles will be notified to return their vehicles to a Toyota dealer. Using an inspection software, dealers will evaluate the #1 main bearing and collect available vehicle drive data to confirm the condition of that bearing. If the inspection software cannot confirm that the bearing will be free from abnormal wear due to this condition, dealers will replace the engine. The remedy will be provided free of charge. Toyota plans to contact customers directly in phases when the remedy is available for their vehicle. As a general matter, the planned

phases would be based on vehicle age. In the meantime, owners with vehicles experiencing symptoms, such as engine knocking, rough running, or no-start, should contact their Toyota dealer.

Manufacturer Safety recall issued

- NHTSA #26V038
- Recall #26TA02 SAFETY RECALL 26TA02 (REMEDY NOTICE) - CERTAIN 2024 ? 2025 MODEL YEAR TUNDRA & TUNDRA HYBRID - MULTIMEDIA DISPLAY STUCK ON A CAMERA VIEW OR BLACK IMAGE
- Status: Remedy Available

Locate an authorized Toyota dealer near you to schedule an appointment

🔍 [Learn more about this recall](#)

Description: Under certain circumstances, the multimedia display may become stuck on a camera view or display a black image in the subject vehicles. If this occurs, the rearview image may not be displayed while the vehicle is being reversed. In this case, the vehicle may not meet a federal safety standard and there can be an increased risk of a crash with a person behind the vehicle.

There can be an increased risk of a crash with a person behind the vehicle.

Remedy: Any authorized Toyota dealer will update the software for the Parking Assist ECU software, FREE OF CHARGE.

CARFAX Glossary

Damage Indicator

Damage can be a result of many different types of events. Examples include contact with objects (other cars, trees, traffic signs, road debris, etc), vandalism, or weather-related events. Not every damage event is reported to CARFAX. As details about the damage event become available, those additional details are added to the CARFAX Vehicle History Report. CARFAX recommends that you have this vehicle inspected by a qualified mechanic.

- This CARFAX Vehicle History Report is based only on information supplied to CARFAX and available as of 7/23/26 at 5:37:10 PM (CDT). Other information about this vehicle, including problems, may not have been reported to CARFAX. Use this report as one important tool, along with a vehicle inspection and test drive, to make a better decision about your next used car.

Damage Severity

Damage events result in one of the following severity levels:

- Minor: Generally, minor damage is cosmetic (including dents or scratches), may only require reconditioning, and typically does not compromise a vehicle's operation and/or safety.
- Moderate: Moderate damage may affect multiple components of the vehicle and may impair the vehicle's operation and/or safety.
- Severe: Severe damage usually affects multiple components of the vehicle and is likely to compromise the vehicle's operation and/or safety.

CARFAX recommends getting a pre-purchase inspection at a certified collision repair facility.

First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

Manufacturer Recall

Automobile manufacturers issue recall notices to inform vehicle owners of a safety defect or failure to meet minimum federal safety or emissions standards. Manufacturer recalls are repaired at no cost to the customer.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.

Toyota Recall / Service Campaign

Portions of this report have been included under license from Toyota Motor North America, Inc. ("TOYOTA"), License Agreement TMS1013 . This data applies only to vehicle marketed or originally sold in Mexico and the United States of America, including Guam, Saipan, American Samoa, Puerto Rico, the U.S. Virgin Islands and the other United States territories and protectorates with currently open safety or emissions recalls, or service campaigns. While TOYOTA provides data to Carfax Inc. on a regular basis, this report may not include very recent activity. For the manufacturer's most current information on recall/campaign activity for any Toyota, Lexus or Scion brand vehicle, you must go to <http://toyota.com/recall> or <http://lexus.com/recall>.
